Dear Mary Sue,

COMPLIANCE REPORT

RE: MANSON, BRUCE DAVIS

There have been numerous new developments on this case and they are as follows.

An individual by the name of Steve Grogen appeared on our lines (PM). I received word that he had made statements that he was a member of Mansons family and therefore started some intell. action, which at first consisted of talking to the girls he had been in contact with. By the time I had finished talking to them Grogen had been put away in jail for car theft. In spite of numerous efforts on our part it was impossible to get together with him. I had the girl he seemed to be most in comm with, journey out to the valley on four different occasions to talk to him and in spite of our best efforts he was never made available. He was either "in court" or the jail was undergoing extensive re-decoration. Of course we did not want it known that a member of The Church was trying to see him. At the same time this was going on we received word that two members of the Manson Family "squeaky Frome" and "Sandy Goode" were staying at the Viking Motel on 3rd and Alverado which is in close proximity to the org. We made no efforts to contactthem.

On 18 June 80 the following report was received by me.
Report of interview with Raul Morales, Re: Charles Manson.
According to Raul: Raul arrived in prison on McNeil Island, Washington in 1962 and became a cell mate of Lafayette Raimer allegedly a trained Scientology auditor (about Level I in Raul's estimation) and was introduced to Scientology at that time. Raimer was auditing in prison at that time and in one 10 man cell had managed to gather a group of about 7, all in Scientology. Charles Manson entered later and studied, did TRO etc. along with his cell-mates and received approximately 150 hours of auditing from Raimer. Processes used were CCH's, Help processes (Who have you helped-Who have you not helped) and other Dichotomy processes (Rauls terms, such as What can you confront, what would you rather not confront), Havingness (Such as "What can you have?" "Look around and find something you can

have. Look around and find something you're not in." Rainer kept records of his auditing. Manson got super-energetic & flipped out when he'd been audited and would, for a time, talk about nothing but Scientology to the extent that people avoided his company. After a while, however, Manson was screaming to get away from his auditor (in Raul's opinion, he'd been severely over-run or something). He eventually managed to get put in solitary confinement to get away from his auditor. Eventually prison officials got suspicious of the groups strange activities and broke up the group. Subsequently, Raul was released from the prison in 1965. Rainer's wife was in training here at the L.A. Org in 1965-66; she had disconnected from Rainer. Raul just found out yesterday that another friend, Marvin White, later sent Manson books (after the Scientology group was broken up) on hypnotism and black magic,
